MIXMAN D5 HURRICAN

The most powerful machine on the market

55kW Hatz motor 7m³/min air output

OUT NOW!

MIXMAN D5^{HURRICAN} | ACGB 70 COMPRESSOR - ca.7m³/min air performance

GB Machines GmbH & Co. KG

MIXMAN D5^{HURRICAN} - STORM EVERY CONSTRUCTION SITE

HATZ 55kW - IT DOESN'T GET ANY STRONGER

COMPONENTS EASY TO REACH

UP TO 7,0 m³/min AIR PERFORMANCE = 116,66 l/s

LARGE BOILER OUTLET THROUGHOUT

TECHNICAL DATA

	MIXMAN D5 ^{HURRICAN}	MIXMAN D5B ^{HURRICAN}	MIXMAN D5BS ^{HURRICAN}
Model	Feeder	Standard	Feeder/Scraper
Power Unit	Hatz diesel engine up to 55.4 kW power, max. torque 244 Nm		
Compressor	ACGB-70 compressor		
Pressure-Mixing Tank	265 litres gross/200 litres net from European production equipped with wear plates. Standard version is boiler outlet in the middle, front boiler outlet possible as special equipment.		
Fill Level	890 mm	420 mm	420 mm
Tank Capacity	ca. 60 Litres		
Frame/Chassis	Chassis made in Germany, sturdily constructed with 5mm walls, special coating for optimum corrosion protection (against rust), high-quality powder coating Chassis colour: RAL 9023		
Cooling Unit	The radiator can be cleaned easily and simply through the removable radiator protection grille, without tools only 4 screws have to be loosened so that the protection grille can be removed without any problems.		
Sound Level in dB	ca. 99dB(A)		
Chassis	ALKO axle with (reinforced) 2t version (stronger axle tube), reinforced tyres and rims, adapted to the 2t axle.		
Bonnet	GRP (from vehicle construction) with internal aluminium reinforcement frame for optimum stability of the bonnet, stainless steel hinges Large air inlets for cooling air in the hood, when the machine is parked the ram air can escape easily to ensure a restart. Large air outlets for warm exhaust air both in the bonnet towards the front and in the chassis towards the front.		
Road Approval	80 km/h - 100 km/h, technically possible up to 140 km/h**		
Weight	1.740 kg*	1.850 kg*	1.960 kg*
dimension (LxWxH) in mm	4850 x 1580 x 1550	5000 x 1580 x 2450	5000 x 1580 x 2450

STRONG MACHINES NEED A STRONG TEAM
